LARIAC 4 Status & User Group Meeting Early Access

February 6, 2014

Early Access Defined

Born from our revolutionary Disaster Recovery Program, Pictometry's Early Access provides imagery through the existing CONNECT™ platform. As Pictometry processes flight sorties customers receive imagery through CONNECT about 10-14 days after initial capture. The interface provides a dual-pane view allowing users to see on a map where early access imagery is available and while also seeing the new imagery itself.

Addressing Searching Options

The screenshot displays the CONNECTEXPLORER web application interface. The browser window shows the URL `pol.pictometry.com/explorer/index.php`. The application header includes the CONNECTEXPLORER logo, a search bar with the text "pepperdine", and user information "David Peck".

The main map area shows a satellite view of the Pepperdine University campus in Malibu, CA. A red pin marks the location of Pepperdine University. The map includes labels for various roads and landmarks, such as Pacific Coast Hwy, Malibu Canyon Rd, and Malibu Bluffs State Recreation Area.

On the left side, the "Search Results" panel shows the search results for "Pepperdine University, CA". It includes a "Bookmark" button, a "Hide Features" button, and an "Export" button. Below the search results, the "Address (1)" section lists the following information:

- Pepperdine University, CA
- Higher Education Facility
- Street:
- City:
- State: CA
- County: Los Angeles Co.
- Country: United States
- Postal Code:

A dropdown menu is open, showing the "Addressing Searching Options" menu. The menu items are:

- Address
- Address Points
- City Boundaries - Legal (201311)
- Communities Boundaries
- Land Types
- Parcels (Cached)
- Parcels (Streamed)
- Points of Interest
- ZIPCodes

The bottom of the screen shows the Windows taskbar with the Start button and several application icons. The system clock indicates the time is 3:42 PM on a desktop.

Preferences Tab

The screenshot shows the CONNECTEXPLORER web application running in a Firefox browser. The browser's address bar displays the URL `pol.pictometry.com/explorer/index.php`. The application interface includes a toolbar with various map navigation tools, a map of Malibu, California, and a 'Preferences' dialog box.

The 'Preferences' dialog box is open, showing the 'General' tab. The settings are as follows:

- Maps**
 - Remember Location: ☐
- Center Marker**
 - Show Center Marker: ☒
- Dual Pane**
 - Synchronize on Pan: ☒
 - Synchronize Zoom Level: ☐
 - Synchronize Orientation: ☐
- Export Image**
 - Image Type: JPEG
 - Scale Image: Yes
 - Add North Pointer: No
 - Add Image Date: No

The 'Save' and 'Cancel' buttons are at the bottom of the dialog box. The background map shows Malibu, California, with labels for 'Pacific Coast Hwy 1', 'Malibu Rd', and 'Malibu Country Estates'. A blue banner in the top right corner of the map area reads 'EARLY ACCESS'.
